

IWFM Qualifications in Facilities Management

Level 6 Qualifications

The qualifications at Level 6 develop the strategic skills and knowledge for FM professionals working at or aspiring to senior positions. They reflect the ability to refine and use relevant understanding, methods, knowledge and skills to address complex problems. They will help ensure that you are able to underpin substantial change or development, as well as exercise broad autonomy and judgement.

How do they work?

Within each level there are 3 sizes of qualification (Award, Certificate and Diploma). All qualifications are made up of units of learning, which have credit values [see overleaf]. For each unit you will need to complete a work based assessment to be submitted post your course. Note: Quadrilect offer Award only.

In House Delivery

We offer in-house delivery of the Level 6 qualification for organisations. Please contact us to discuss the program and fees.

IWFM Membership

Non-members receive one year free membership upon registration. Existing and lapsed members need to renew their membership if they wish to benefit from membership during the qualification.

Concessionary rates apply for unemployed learners.

The Award - 10 CREDITS ONLY

Course(s) to attend:

- 1 DAY** - Future Trends and Innovation in FM
- 3 DAYS** - The FM Business School
- 3 HOURS** - Online Module: Problem Solving

Written assessments:

FM6.01 - 10 credits (overleaf)

Future Trends and Innovation in FM

Developing a business case and innovation plan

Take time out from day-to-day operations and explore how to take your service to a new level. We review models of FM innovation, what they've delivered and how they may apply to your organisation and offer a mix of theory and practical exercises focused on developing improvements and introducing innovation methods in your

- Understand the importance of embedding FM innovation
- Critically review the strategic & operational aspects of service innovation
- Use a business case framework to develop a service model to add value to your organisation
- Critically review the latest innovations, tools and techniques for use in FM
- Select and experiment with one new development, tool or technique and analyse the success or failure of the experiment

The FM Business School

A strategic perspective on FM

A case study driven course aimed at FMs with over 3 years' managerial experience. It will give you a strategic understanding of FM, enabling you to communicate more effectively with senior management. Demonstrate the relationship between your FM operations and changing corporate objectives so that the vital role of a professional FM service is given recognition as a key contributor to business success.

- A strategic vision of FM
- The future workplace
- New technology for FMs
- Property strategies
- Contracting, PFI & property – latest developments
- Corporate Responsibility
- Managing people through change
- Preparing and presenting a business case for FM at board level

Problem Solving

Most professionals solve at least one problem every day of their working lives, but rarely stop to consider the methods they use to achieve this until faced with a potentially significant issue. This course looks at the key skills needed to successfully identify, analyse and solve problems. Practical exercises and activities ensure that professionals have plenty of opportunity to try out a wide variety of problem solving tools and strategies. As a more experienced or senior FM, you will value this opportunity to spend time reviewing your approach to problem solving techniques.

Our Tuition - is based upon a selection of short courses from the long-established Quadrilect Ltd programme. It is designed to give you a fully rounded learning experience, so we not only cover all the unit learning outcomes, but the wider context too. Quadrilect Ltd helps to make you more effective in your day-to-day role, while you gain your qualification.
