01 Understanding FM (Foundation)

3 DAYS

An introduction to the FM profession

Our popular flagship course, is suitable for newly appointed staff and those with less than two to three years' operational experience looking to broaden their range of responsibilities and skills.

- What is FM? Definitions & descriptions
- Property management
- Customer-centric FM
- Maintenance management
- Sustainability and management of energy to minimise costs
- The role that FM plays in corporate success
- An introduction to buildings & services
- Space planning & relocation management
- Commissioning & managing contract services
- Measuring & valuing the FM service
- Health & safety in the workplace

This course provides tuition for IWFM Level 3 qualifications in FM. Additional fees apply.

Understanding FM

Course 01

“

Course 10/10 Engaging, interesting and relevant. Extremely motivational for myself who has only been in FM for a short period of time, and the course made me realise what an exciting career it is to be in. Trainers 10/10 All enthusiastic, helpful, knowledgeable and people to look up to who have had a fantastic career in FM.

”

Site and Facilities
Apprentice, BAE Systems

02 FM – Operational Management (Intermediate Module)

3 DAYS

Stepping up to a senior management role in FM

Recommended for FMs with more than two years' operational experience this course aims to develop managerial abilities for those on the path to a more senior FM position. Explores the scope, extent and diversity of the FM function, and examines techniques that will add value to the FM operation and align it to organisational objectives.

- Understanding FM service in its market sector
- Developing FM service within its business context
- Designing operational FM structures
- FM support service operations
- Health, safety & service delivery
- Financial management & budgeting
- Property occupancy & operating costs
- Planning & managing a relocation project
- Buildings aspects of workplace productivity
- Energy, environment & sustainability
- Business continuity planning

This course provides tuition for IWFM Level 4 qualifications in FM. Additional fees apply.

03 The Professional FM – Business & People (Intermediate Module)

3 DAYS

Building commercial awareness & team resilience

This course links the key aspects of what makes a FM successful. It focuses on the importance of linking strategy and the commercials with the way you develop high performing teams. Clarity in vision, measures for success and enabling people management skills will be covered in this three-day programme. It is intended for FMs with a minimum of two years' managerial experience in the field.

- Business & FM strategy alignment
- Techniques for performance management from organisational to individual level
- Risk profile and impact
- FM procurement & the supply chain
- FM team recruitment, selection and retention
- FM team development
- Managing wellbeing at work

This course provides tuition for IWFM Level 4 & 5 qualifications in FM. Additional fees apply.

04 Future Trends and Innovation in FM (Executive)

1 DAY

Developing a business case & innovation plan

Take time out from day today operations and explore how to take your service to a new level. We review models of FM innovation, what they've delivered and how they may apply to your organisation and offer a mix of theory and practical exercises focused on developing improvements and introducing innovation methods in your organisation.

- Understand the importance of embedding FM innovation Critically review the strategic & operational aspects of service innovation
- Use a business case framework to develop a service model to add value to your organisation
- Critically review the latest innovations, tools and techniques for use in FM
- Select and experiment with one new development, tool or technique and analyse the success or failure of the experiment

This course provides tuition for IWFM Level 6 qualifications in FM. Additional fees apply.

05 The FM Business School (Advanced)

3 DAYS

A strategic perspective on FM

A case study driven course aimed at FMs with over 3 years' managerial experience. It will give you a strategic understanding of FM, enabling you to communicate more effectively with senior management. Demonstrate the relationship between your FM operations and changing corporate objectives so that the vital role of a professional FM service is given recognition as a key contributor to business success.

- A strategic vision of FM
- The future workplace
- Property strategies
- Contracting - latest developments
- Corporate Responsibility
- Managing people through change
- Preparing and presenting a business case for FM at board level

This course provides tuition for IWFM Level 5 & 6 qualifications in FM. Additional fees apply.

FM Business School

Course 05

“

Course: 10/10 A varied interesting and deep dive into the history of Facilities Management and current developments in the industry. The course is structured well to fit around a final exercise that makes use of the skills and knowledge you have learnt across the course. I really enjoyed the pace of learning. Trainers: 10/10 Excellent engaging trainers throughout the FM Business School Course. The trainers were all subject matter experts that were able to translate the course content across different industries for the attendees. I felt thoroughly engaged in all sessions.

”

Facilities Manager, Jewish Care

06 Team Leading (ILM Level 2 Qualification)

3 DAYS

Getting the best out of your FM team

This qualification is designed to give aspiring and practicing team leaders a solid foundation in their development as leader. With top down and bottom up pressures it is difficult to migrate into a team leader's role without some professional training support. This course gives you a range of tools & insights to self manage and successfully lead others.

- Exploring the supervisory role and responsibilities
- How to establish and position yourself as a team leader
- Planning your personal and professional development
- Setting personal objectives and team goals
- Giving and seeking feedback
- Controlling people, processes and productivity
- Effective time management
- How to manage difficult conversations
- Understanding stress, its effects and ways of managing it
- Communicating effectively with your team
- Planning and delivering team briefings
- Reporting briefing outcomes

This course is accredited by the ILM and is delivered through their approved provider Radius 360. The ILM Level 2 Award in Leadership and Team Skills and can be attained upon successful completion of structured answer questions and one work-based assignment

07 High Performing FMs

2 DAYS

Elevate your leadership and communication skills

An interactive course designed to equip FMs with essential people skills, effective communication and hands-off management techniques. Empowering you to drive organisational goals, optimise resources, and lead high-performing teams. You will master: verbal, non-verbal, and written communication, monitoring performance effectively, aligning your facilities management goals with organisational objectives and focus on your leadership style to build a positive team culture.

By the end of this course you will

- Develop and implement effective communication strategies
- Be able to apply strategic management practices to enhance facilities operations
- Utilise hands-off management techniques to empower your team
- Drive innovation and overcome challenges in your facilities management role

08 Maximise the Customer Experience

1 DAY

Creating one team service excellence

The FM's role is to deliver service excellence and a working environment that bolsters productivity whilst meeting both budgetary and legal requirements and responding to changing business imperatives. Learn how a customer-centric FM service can be achieved with a 'one team' approach that includes suppliers and in-house staff, and how measuring and publishing your results will demonstrate the value of modern FM to customers at every level.

- Defining today's service culture
- How to deliver a customer-centric culture
- Alignment of service to business requirement
- Defining what excellent customer service means to your organisation
- Measuring service excellence
- Service level agreements & key performance indicators
- Customer experience, relationships & perception

This course provides tuition for IWFM Level 4 qualification unit FM4.15. Additional fees apply.

Team Leading Course 06

“

10/10 This course was very helpful and educational to me. It will definitely help me in my career path towards leadership and management. The trainer: Adrian was very helpful, knowledgeable and friendly. He made me feel very comfortable whilst on the course, I felt like no question or answer was stupid and validated.

”

Estates & Facilities Helpdesk Assistant, Merseycare NHS Foundation Trust

09 Managing Hybrid & Remote Working Teams

1 DAY

Getting the best from your hybrid and remote workers

The introduction of the new Flexible Working Act 2023, means it is paramount for managers to be equipped to manage the additional challenges of hybrid and remote working teams.

There is so much more complexity to take into consideration when we don't meet people face to face on a regular basis, however when managed well, it can create infinite opportunities for growth.

At the end of this workshop, delegates will feel confident in carrying out the following aspects of their role online:

- create environments with their team to build trust and collaboration
- use practical tools and techniques to encourage engagement
- Facilitate discussions that take into consideration all attendees enabling everyone to have a voice
- Manage performance through two way one to ones
- Build in the ethics of the culture so that everyone is focused on a common goal
- Hold sensitive discussions that may often be avoided in an online world
- Understand how and when to support each individual in a way that suits them rather than using a 'one style fits all' approach

10 Successful Career Development within FM

1 DAY

Create an action plan for your future

When working operationally in FM, it can be hard to take the time to plan out your future career and to develop yourself in order to achieve the right pathway for you. This course starts with an understanding of careers within FM and then moves to the development of personal assessments and action plans.

During the one-day course, the focus on skills, blockers and how to fill gaps will result in a personal career plan. By the end of the programme, you will be able to:

- Understand career paths within FM
- Assess leadership skills
- Identify blockers to the next move
- Understand personal brand within a career
- See how to set attainable goals

LEADERSHIP & MANAGEMENT OF PEOPLE

COMMERCIAL & FINANCIAL MANAGEMENT

PROJECT MANAGEMENT

11 Delivering Cost-effective FM Services

1 DAY

How to get value for money from your FM services

FM costs vary by organisation but often make up at least 10% of an organisation's total revenue spend. In many organisations this percentage can be much higher. FMs have to be able to justify spend & demonstrate the added value that this expenditure brings to their organisations core business. This one day course explores key areas to help with this key management challenge.

- Understanding how the specification affects costs
- How to determine what is truly important to your organisation
- Control specification creep whilst dealing with competing user demands
- Confidently manage service delivery & control costs
- Key cost drivers
- How to justify or reduce costs
- Develop cost plans which are both realistic & sustainable

Financial Management 1 Course 12

“

It was pitched at all of us as we all had different levels of knowledge of the subject but was put in a way I could understand as I had little experience of budgeting etc.

”

Audit Officer, NHS

12 Financial Management 1

1 DAY

Finding your feet in finance

This one day course is aimed at FMs with little or no financial background and introduces the key principles of finance, accounting and budgets. No matter what your career aspirations, an understanding of financial management and accounting will play an important role in your work as your career advances – be it for a job application, monitoring of suppliers/customers, or writing budgets. So spend the day with us and we'll show you that you don't need to be intimidated by numbers.

- Financial terminology explained – don't let people intimidate or bluff you!
- Preparing and reading accounts
- Financial proposals
- Accounts, balance sheets & cash flow statements
- Preparing & managing cash budgets
- Checking the accounts of customers & suppliers
- VAT & tax implications on FM activities
- Budget templates in excel format provided for course exercises & office use

This course provides tuition for IWFM Level 3 qualification unit FM3.07 and IWFM Level 4 qualification unit FM4.07. Additional fees apply

13 Financial Management 2

1 DAY

Building on your financial knowledge

Intended for FMs who already have a grasp of the basics, this course provides a refresher on the key accounting principles before exploring the practical application of financial skills. Do you have to understand and compare company accounts? Do you need to understand how cash flow can go down, even as a business expands? Are your departmental overheads too high?

- More financial terminology explained
- Role of the auditor
- Discounted cash flow methods
- Capital budgeting, investment appraisal and ethical accounting
- Budget templates in excel format provided for course exercises & office use
- Determining financial performance with key ratios
- Analysing management accounts & problem solving
- Analysing the ways overheads can be allocated
- Budgeting, capital management & adding value
- Presenting a financial case to senior management

This course provides tuition for IWFM Level 5 qualification unit FM5.05. Additional fees apply.

14 Project Management

2 DAYS

A step-by-step guide to delivering FM projects

FM projects have their special challenges. With their high visibility and many stakeholders; often with differing requirements, they can be difficult to deliver successfully. With a structured, relevant case study and step-by-step approach, this course explains the fundamentals of project management and provides the knowledge, tools and techniques required to plan, monitor and control your projects effectively. It enables you to define and deliver a project with far greater chance of success, enhancing both your capabilities and your reputation.

- Fundamental concepts & jargon busting
- Key roles and responsibilities
- Defining the project
- Developing project scope
- Sound estimating techniques
- Networking techniques
- Critical Path Analysis
- Managing project risks
- Scheduling work & resolving resource issues
- Monitoring, reporting and controlling the project
- Effective handover and closure

This course provides tuition for IWFM Level 4 qualification unit FM4.12 and IWFM Level 5 qualification unit FM5.11. Additional fees apply.

Project Management Course 14

“

The interaction with the other members of the group, the method of presentation and interaction with the trainer. Derek was wonderful, his encouragement to have all engage in the session was positive. The approach and presentation of the training was ideal for my method of learning and I felt I got a lot out of the sessions.

”

Regional Facilities Contract Manager, FCDO

15 Smart Buildings & Artificial Intelligence in FM

NEW

1 DAY

Recognising the opportunities for FM

A comprehensive review of new and emerging technologies that will impact work and the workplace, with visions of the future and case studies from innovative workplaces. This course will allow FMs to understand the key trends and adopt technology that can lead to FM innovation.

- Emerging Technologies
- New ways of working and the workplace of the future
- Smart Buildings and Digital Twin
- What are the benefits?
- Changing role of FM
- What kind of buildings do we need?
- Sustainability impact
- Data Analytics and monitoring
- Case studies

Smart Buildings & Artificial Intelligence in FM

Course 15

“

Course: 10/10 Great introduction to AI systems Trainers: 10/10 Excellent trainers, knowledgeable, a fun and enjoyable session.

”

Facilities & Estates Manager
Stevenage Bioscience Catalyst

16 Essentials of Building Services

2 DAYS

Making sure your building functions effectively

This course will provide you with a good introduction to and explanation of heating, ventilation, cooling, lighting, utilities, energy management, lifts and associated services. Learn how they work, how to cost effectively manage them and how to work confidently and successfully with contractors and technical support staff.

- The fundamentals of building services
- Monitoring operating costs & environmental impacts
- Good energy purchasing & management
- Handling building emergencies
- Carbon management & environmental performance
- Building management systems (BMS)
- The four minute audit
- Handling customer complaints

iwfm
RECOGNISED CENTRE

This course combined with Building Surveying & Maintenance, provides tuition for IWFM Level 4 qualification unit FM4.17. Additional fees apply

17 Building Surveying and Maintenance

1 DAY

Managing building maintenance with confidence

This course will help you manage your maintenance responsibilities more effectively and avoid unnecessary cost, damage or down time. Our highly experienced trainer will help you anticipate problems and plan preventative maintenance both inside and outside buildings, including lease commitments, instructing surveyors and interpreting reports.

- Signs & cost of poor design & neglect
- Life cycle costing & predicting running costs
- Building certification & the Part L Regulations
- The Equality Act, asbestos, fire and H&S issues
- Lease commitments, service charges, dilapidations
- Fabric maintenance; external structure & cladding
- Surveying building services installations
- Environmental issues
- Implementing fabric maintenance works
- Structural audits & condition surveys
- Obsolescence and depreciation
- Planned & preventative maintenance

iwfm
RECOGNISED CENTRE

This course combined with Essentials of Building Services provides tuition for IWFM Level 4 qualification unit FM4.17. Additional fees apply.

18 How to Manage Facilities Data

1 DAY

Effectively generating business benefits

Facilities managers require a wide range of data but it is easy for organisations to have too much or too little and not know what to do with it when they have got it. Without the right data you can't demonstrate that you are meeting your objectives, managing your suppliers effectively or optimising expenditure. This course provides an understanding of what data is needed, how it is collected and how it is used and maintained in a way that is both secure and delivers quality and value

- An understanding of what facilities data is needed and how to get it
- How the right facilities data can support operational efficiency
- Using facilities data effectively to generate business benefits
- Managing and maintaining facilities data including using CAFM systems
- How facilities data can support ISO 41001 compliance
- Using facilities data to deliver value

Essentials of Building Services Course 16

“

Kept us all engaged, great at explaining and added elements of humour to keep it lighter hearted at times. Lots of knowledge and very clear, answered all questions. Good reading materials. Great food, service and location.

”

Facilities Manager, Haymarket Media

PROPERTY

MANAGEMENT

REGULATORY UPDATE & FM COMPLIANCE

RISK MANAGEMENT

SUSTAINABILITY

FM Compliance & Standards Course 19

“10/10 Brilliant! Focused to what we needed, provided lots of really useful links and theory was backed up with real-life examples which aids practical understanding massively. The trainer: Very knowledgeable, allowed plenty time for questions. Kept the pace snappy, but also provided time for regular breaks. Encouraged an approachable environment where no question was deemed silly or irrelevant and listened to delegates accurately to give appropriate answers.”

Regional Facilities Compliance Manager, National Highways

19 Overview of FM Compliance & Standards

2 DAYS

Key legislation areas for any operational FM

Regardless of the size of the building or the FM team, understanding and complying with legislation and standards is an essential requirement for FMs. Facilities Managers don't just need to understand what they have to do to keep their buildings safe, but also the required frequency of maintenance, inspection and record keeping. This practical two day course provides FMs with an introduction of key compliance management requirements and the knowledge to develop their own compliance checklist.

Our trainer reviews the legislation and management impact, areas will include:

- Fire; Asbestos
- Lifting Equipment
- COSHH
- Electricity & Water Management
- Air Conditioning
- Pressure Vessels
- Noise
- Gas
- Working at Height
- Overview of Managing Contractors

20 Fire Safety Compliance

1 DAY

Ensure you are legally compliant and know the fire risk assessment process

Significant fines and imprisonment are being imposed on businesses (including managers & directors) for breaches of legislation, even where no fire has taken place. The Regulatory Reform (Fire Safety) Order 2005 makes all organisations responsible for their own legislation compliance and fire safety regime. This course is an excellent foundation for those with basic fire safety responsibilities as well as an update for those who have some knowledge of the subject.

- Enforcement procedures
- Fire risk assessment process
- Equipment, lighting and signs
- Emergency plans, travel distances
- Fire Safety (England) Regulations 2022
- 'Responsible', 'Competent' and 'Relevant' Persons
- How fire spreads and behaviour of people in fires
- Detection, early warning and means of escape

21 Business Risk Management & Recovery

2 DAYS

Key requirements for effective risk management, contingency planning and disaster recovery

Unforeseen incidents can develop into disasters and severely disrupt business activities. Terrorist attacks are well publicised but floods, fires, computer & power failures and other incidents affecting both physical assets and workforces are surprisingly common. No organisation is immune and no responsible manager can afford to ignore the danger to employees, the loss of essential assets and the overall financial impact.

- What is risk & the main types
- Key legal obligations
- Principles of risk management
- Determining risk and what really matters
- Carrying out a risk assessment
- Developing a risk aware culture
- The importance of managing reputational risk
- Managing financial, delivery and supplier risk
- How to develop and implement BCP & DR plans

iwfm
RECOGNISED CENTRE

This course provides tuition for IWFM Level 4 qualification unit FM4.06 and IWFM Level 5 qualification unit FM5.04. Additional fees apply

22 Net Zero for FMs

1 DAY

Understand the key concepts to develop a target and roadmap to achieve net zero

Stating a Net Zero target is becoming a pre-requisite to work for many larger and public sector organisations but alongside the target must be a plan to achieve this that goes beyond offsetting. Greater scrutiny on the depth and robustness of these targets and plans are highlighting what good practice looks like and also where organisations are greenwashing.

This course covers the development of the greenhouse gas emissions inventory for an organisation, together with the development of a target and a roadmap to achieve net zero. It follows the new Standard for GHG reporting for FM services.

- Understanding terminology and key concepts surrounding net zero
- Government targets, public sector tender requirements and expectations
- Providing a methodology to build a net zero roadmap
- Running through a worked example
- Provision of the SFMI GHG Emissions Standard for FMs
- Overview of renewable purchasing and offsetting and how to use them appropriately

23 Sustainable Development

2 DAYS

Compliance, best practice & practical tools for environment, waste & energy

From climate change to social value and single use plastics, sustainability issues are now a cornerstone for the FM. Changing legislative requirements and meeting external certification or stakeholder requirements requires new skills to implement effectively. Discover practical and cost effective ways to tackle rising energy costs and generate a revenue stream from waste.

- The business case for sustainability
- Energy, waste and social regulation
- Energy management & efficiency
- Employee engagement and behavioural change
- No-cost & low-cost measures for buildings and implementing energy saving measures
- Determining risk and what really matters
- Understand best practice and its applications
- Environmental Management Systems and ISO 14001
- How to implement key sustainability initiatives and best practice within the workplace

iwfm
RECOGNISED CENTRE

This course provides tuition for IWFM Level 4 qualification unit FM4.19 and FM4.20 and IWFM Level 5 qualification unit FM5.19 and FM5.20. Additional fees apply

24 ESG for Senior Managers in FM

1 DAY

Environmental, Social & Governance Performance in FM

ESG performance is becoming critical for the FM sector. It requires a strategic approach that encompasses culture as well as systems and processes, often referred to as Responsible Business.

This course covers the fundamentals of ESG from a strategic perspective, beginning with mandatory reporting and legal obligations and going on to explore elective standards, prominent reporting frameworks and the key elements that underpin an effective ESG strategy.

- Understanding terminology and key concepts surrounding ESG
- ESG legislation and policy trends
- Elective reporting frameworks and standards
- Responsible Business principles as a basis for ESG strategy
- Responsible Business self-assessment – how does your organisation perform?
- Values, purpose and the role of culture in Responsible Business
- How FM strategy can support enhanced ESG performance

25 The Tender Process

1 DAY

Setting up a successful value-for-money contract

Too many contracts fail to meet customer expectations due to poor specification and inadequate pre-qualification and tendering procedures. This course will provide you with an effective, systematic and professional approach to tendering the appointment of contractors through the use of good specification and process management.

- Difference in public and private sector processes
- Identifying & agreeing contract objectives
- Identifying potential suppliers & managing the tender process
- Developing an effective specification of requirements
- Invitation to tender (ITT) & instructions to tenderers
- Pre-qualification process
- References, interviews and negotiation
- Evaluating bids for value-for-money
- Shortlisting, post-tender clarification & negotiation
- Contract award, handover & mobilisation

This course combined with Contract & SLA Management provides tuition for IWFM Level 4 qualification unit FM4.21. Additional fees apply

26 Contract & SLA Management

1 DAY

Successfully managing contracts and service levels

This course is designed to help you achieve the demanding performance requirements expected of your contracts and service level agreements. It will help you ensure that the objectives and targets set out will be met in practice, and within budget, so that promised customer benefits are delivered and service delivery improved.

- Understanding the legal framework of contracts
- Roles, responsibilities and relationships
- Measuring performance
- Why contracts fail
- Performance improvement programmes
- Dispute avoidance & resolution
- How to manage contract change & cost variation

This course combined with The Tender Process provides tuition for IWFM Level 4 qualification unit FM4.21. Additional fees apply.

CORPORATE ANNUAL TRAINING PASS

Building a comprehensive training plan for your team development

Making plans for 2024-2025 then talk to us about the co-ordinated annual plan you can set up for your teams to upskill and ensure a high standard of competence throughout the organisation.

CONTRACTING

Corporate Annual Training Pass

“We chose Quadrilect because they have such a wide offering and their previous programs have been really well received. We have undertaken CPD and formal qualifications. Their service has been both flexible and responsive to our needs and the Annual Training Pass offers real value for money.”

Regional Facilities Manager, Arcadis

28 Effective Space Planning

2 DAYS

Getting the layout and office design right

From full scale office relocations to the smallest workplace rearrangements, the design, allocation and utilisation of space determines occupancy costs, staff morale and productivity. The advent of hybrid working has changed the way we work, along with the increased focus on staff wellbeing it has made the design of our offices even more important. With detailed guidance, case studies and exercises on space planning practice, this course guides you through the whole process from establishing needs to creating effective work environments for the modern world, accommodating subsequent changes, and planning for the ever changing future.

- The impact of the workplace on wellbeing and productivity
- Planning strategies and workplace layouts
- Designing for hybrid and agile ways of working
- Space standards and the Law
- Open, enclosed workplaces, partitions, ceilings, lighting and flooring
- The space planning process
- How to gather and analyse workplace data
- How to interpret business needs for the use of space
- How to calculate floor areas and circulation space
- The use of 'stacking' diagrams and 'blocking' plans
- The importance of understanding corporate culture
- Change management: Managing the human impact of changes to work environments

This course provides tuition for IWFM Level 4 qualification unit FM4.18 and IWFM Level 5 qualification unit FM5.18. Additional fees apply

Effective Space Planning Course 28

“
I thought the course was really informative. It gave me some good ideas to use over the next year with my move project and has helped me with some base plans to confirm we are looking at the right size for our needs.

”
Facilities Team Lead, Xodus Group

29 Managing Relocation

2 DAYS

Setting up the project and seeing it through to a successful conclusion

This course will provide you with the knowledge and techniques to project manage relocations and refurbishments including fit-outs and moves whilst meeting deadlines and budgets as well as satisfying end-users. Through our interactive workshop approach, delegates are introduced to the techniques used in relocation project management and then gain confidence by using them.

The course has been designed so that anyone (including non-FM members of the organisation) who may be involved in the selection, design and relocation or refurbishment of premises will also benefit from attending.

- Defining the project scope & objectives
- Developing the project plan
- Mobilising internal teams
- Sourcing professional expertise
- Programme and budget control
- Planning and designing space
- The impact of hybrid working
- Sourcing and leasing space
- Checking suitability of the new building
- Communicating with staff
- Preparing, organising and managing the move
- Post-move issues

30 IOSH Managing Occupational Health and Wellbeing

1 DAY

IOSH accredited step-by-step practical guide to health and wellbeing within your organisation

This course aims to help you support your organisation's most important asset – its people. The program will provide delegates with the tools to conduct a health risk assessment considering work related hazards that can impact an individual's mental and physical health. It also covers common non-work related physical and mental health conditions describing how they impact fitness for work.

Key elements of the course are:

- A healthy company and why it makes good business sense to manage workplace health and wellbeing
- Health risk management
- Fitness for work and the importance of managing the fluctuations in people's health
- How the promotion of a wellbeing programme can influence and add value to an organisation

Accredited by IOSH, the world's leading professional body for health and safety practitioners and delivered by System Concepts Ltd, an IOSH approved course provider. A certificate will be awarded on successful completion of a written assessment (based on multiple-choice questions) at the end of the course and a work-based risk assessment post course.

31 Understanding the Construction (Design & Management) Regulations

1 DAY

Managing a successful construction project in compliance with the 2015 Regulations

Everyone controlling site work on their premises has health and safety responsibilities – you need to check that working conditions are adequate before work begins, and ensure that the proposed work is not going to put others at risk. This course explains the key aspects of the CDM regulations, ensuring that delegates are well equipped to make the necessary changes to their operating procedures to ensure compliance with the CDM 2015 Regulations and to follow best practice in the field. The 2015 Regulations are based on the EU Temporary Working Directive and make a number of changes to previous CDM Regulations, such as the removal and replacement of the CDM Coordinator role, replacement of the ACoP, expansion of the CDM remit and changes to the competence requirements.

- CDM Regulations: overview, definitions & principles
- When do the CDM Regulations apply?
- Competence, co-operation & co-ordination
- Duties of clients
- All construction projects: responsibilities of clients, designers & contractors
- Notifiable projects: responsibilities of clients, designers, CDM co-ordinators, principal contractors & contractors
- The Health & Safety File

32 IOSH Managing Safely

3 DAYS

A nationally recognised IOSH Managing Safely certificate for Facilities Managers

This course introduces practical controls to enable best practice in H&S for your organisation. Managing common hazards will help you to reduce sickness and absenteeism; improve the quality and productivity of your workforce and reduce costs such as healthcare, insurance premiums and compensation claims. Accredited by the Institution of Occupational Health & Safety, the world's leading professional body for H&S practitioners.

- The H&S responsibilities of managers
- Assessing & controlling risks
- Identifying & managing common hazards
- Checking performance & learning from losses

The IOSH Managing Safely certificate is awarded to delegates upon successful completion of a written assessment (based on multi-format questions) and a work-based project after the course. Delivered by FMHS Consulting, an IOSH approved course provider.

This course provides tuition for IWFM Level 4 qualification unit FM4.05 and IWFM Level 5 qualification unit FM5.07. Additional fees apply

IOSH Managing Safely Course 32

“

10/10 Incredibly informative, helpful and engaging. Trainer: 10/10 Beth is amazing! She not only made sure that all participants learnt and could relate to the subject matter regardless of their industries, but she did the unthinkable - she made a subject I have always found tedious, relevant, engaging and actually imbued me with enthusiasm for health and safety!

”

Head of Operations, Holocaust Educational Trust

Legionella Awareness Course 34

“

10/10 Really good course. Excellent trainer.

”

Workplace Co-ordinator, Arcadis

33 IOSH Managing Safely Refresher

1 DAY

A best practice refresher enabling you to continue meeting your statutory obligations

It is best practice to refresh your IOSH Managing Certificate every three years. This course provides you with continued support in managing health and safety issues in your workplace, helping you to revise key management responsibilities and updating you on the relevant changes in good practice, legislation and standards.

- Revisit the benefits of managing health and safety
- Review the risk assessment process
- Review how to choose the best method to control risks
- Revise and update the legal requirements of managers
- A fresh look at how to investigate accidents and incidents
- Review and measure performance for continual improvement

Accredited by IOSH, the world's leading professional body for health and safety practitioners and delivered by System Concepts Ltd, an IOSH approved course provider.

A new certificate will be awarded on successful completion of a written assessment based on multiple-choice questions at the end of the course.

34 Legionella Awareness, Responsibilities and Compliance

1 DAY

Responsibilities to oversee and/or undertake water hygiene works on buildings

This course provides you with key information in order to ensure that water systems for which you are responsible are being managed and maintained effectively and in accordance with the relevant statutes and guidance. Our risk assessors will explain safe maintenance, operation, control measures and monitoring practices.

- A brief history of Legionnaires' disease
- Medical aspects of Legionnaires' disease
- Legal perspective
- Choosing a specialist sub-contractor
- Cleaning and disinfection of water systems
- Competency, responsibilities and definitions
- What is a sufficient and suitable risk assessment
- Implementing and managing control regimes/measures
- Where and when water sampling should be carried out
- Record keeping and the management of site records

TEAMWORK & CASE STUDIES

A City & Guilds accredited certificate will be awarded following successful completion of the course verification test.

Delivered by Evolution Water Services Ltd, a City & Guilds Accredited Centre.

35 Assessing Display Screen Equipment

1 DAY

Chartered Institute of Ergonomics and Human Factors Certification

Display Screen Equipment (DSE) assessments can deliver more than legal compliance. Improvements in performance, quality, comfort and satisfaction are all possible when assessments are performed by assessors who understand not only the legal requirements but also how to make practical improvements. This course provides a grounding in the legislation, supporting standards and best practice. It also gives tips on practical ways to conduct assessments, rectify areas of concern and how to carry out the essential Workstation Assessments.

- The Display Screen Equipment Regulations 1992 (Amended)
- The scientific principles behind the regulations
- An introduction to ergonomics
- Virtual issues & display screen work
- Posture & musculoskeletal issues
- Environmental & organisational issues
- How to conduct assessments & use checklists
- Practical assessment exercises
- Implementing an effective action plan

RISK ASSESSMENT EXERCISE

Accredited by the CIEHF and presented by System Concepts Limited, a CIEHF Registered Consultancy.

HEALTH & SAFETY

CORPORATE SOLUTIONS: IN-HOUSE, L&D & BESPOKE SOLUTIONS

Corporate Solutions: in-house training, L&D consultancy & bespoke solutions Learn, Grow, Perform

Count on our commitment to quality, flexibility and choice

Choose from our highly-rated face-to-face learning or online programmes, and take advantage of leading-edge industry knowledge and in-depth practical experience through our extensive network of trainers and consultants. Together we can design the best solutions for all levels, from introductory to senior leaders.

We can work independently or in partnership with your operational teams, HR / training or other internal specialists to design, plan and implement solutions to complement existing corporate programmes. You can also benefit from the wider links to Quadrilect's public courses, professional qualifications, including IWFM, and other accredited courses in areas such as Health & Safety and Leadership and Management.

See more about our Corporate Annual Training Pass, p9.

To discuss the best L&D solutions for your organisation, including in-house qualifications at Levels 3 & 4, please call us on 07483 348 224 or 07483 348 760

Talent Management & Succession?

Whether you're looking to grow existing skills or recruit new talent we can support and advise at all stages using our wide-ranging expertise and industry knowledge.

Benchmarking capabilities against industry standards?

We can work with you to access your team's current capabilities against future demands and challenges, providing better targeting of L&D priorities and resources.

Re-defining roles and performance

Our extensive industry knowledge can help shape your change agenda as an integral part of organisational re-structuring and team development.

L&D planning and impact assesment

Work with us to refine current and medium-term priorities in line with evolving corporate objectives, and design frameworks to measure and evaluate learning outcomes effectively.

Team Transformation

Our highly applied in-house workshops are designed to take your teams to a new level of confidence and capability. Discover how we can work with you to transform your team's performance in areas such as contract services management, frontline customer service, and sustainability.

IN-HOUSE COURSES - see page 13

All courses in the brochure can be delivered inhouse and we also have some programmes that we only offer for in-house delivery which include:

ISO Series for Workplace

- FM Operations Framework - ISO 41001
- FM Strategic Sourcing - ISO41012
- Implementing and Managing Effective Environmental Management Systems – ISO14001
- Occupational H&S Management Systems ISO 45001

People Skills

- Mental Health First Aiders

Contracting

- FM Contract Models

Building Maintenance

- Asbestos Management

Corporate Social Responsibility

- Social value: Management & Approach

Management Development

- ILM Level 3 Management Development
- Succession Planning **NEW**

IH FM Contract Models

1 DAY

Making sense of the variations and determining best fit

Bundled, TFM, managing contractor, best of breed – what are the choices when organising FM services? There are a variety of models available in the market place. This course defines and explains them, examines and discusses the pros and cons of each, and provides frameworks to support the decision making process.

The day includes workshop sessions and interactive exercises to put the ideas into practice.

IH Succession Planning within FM

NEW

1 DAY

Continuity of talent is vital in every organisation. Within FM it is important to develop leaders who move from operational, to tactical then strategic thinking while understanding the scope of the FM industry. The focus of this programme is identifying gaps and developing a process to create talented teams.

IH FM Strategic Sourcing - ISO41012

1 DAY

International Standard on the FM procurement process

This course is designed to help you achieve an understanding of the new ISO standard 41012.

Covering the procurement process - both tactical and strategic perspectives.; considering the different approaches and options available in sourcing; looking at the options and different agreements available to the FM professional

IH FM Operations Framework - ISO 41001

1 DAY

Develop an effective FM Management System

In today's challenging world it is not enough for Facilities Management professionals just to do a good job they have to be able to demonstrate it and quantify it. ISO 41001:2018 provides a framework to allow them to do this in a way that is relevant irrespective of the sector in which their organisation operates or where in the world they are based.

This course will help develop a route map that will optimise facilities management operations in a way that aligns more closely with core organisational objectives

IH ILM Level 3 Management Development

5 DAYS

An introduction to the skills, knowledge and understanding required by today's first line managers. The programme will strike the right balance between planning, organising, motivating and controlling, helping pressured FMs to manage with success and confidence. It is a highly participative and engaging course which offers the opportunity to reflect as well as practise new techniques in a safe environment.

IH Social value: Management & Approach

1 DAY

Building communities through corporate culture

This training provides an introduction to understanding Social Value and how it can benefit the public sector and your organisation. Showing you how to build social value into your procurement culture and build communities through the power of spending.

This will help deliver tangible social value benefits rather than a theoretical view from tenders.

We have a programme available for either private or public sector organisations. Addressing definitions, tenets and how practice can be applied & communicated effectively.

IH Implementing and Managing Effective Environmental Management Systems – ISO14001

1 DAY

Identify and plan actions to meet the standard and realise the benefits

Management Systems are a pre-requisite for FM teams to manage the complexity of reporting, compliance, strategy and risk. ISO 14001 provides a comprehensive set of tools available to companies to minimise harmful effects on the environment caused by its activities, and to achieve continual improvement of its environmental performance.

This course will help you understand how the standard operates and ensure the system is effective and benefits your business.

IH Mental Health First Aider

NEW

1 DAY

Ensure your organisation has the right support in place

This interactive 2 day program will provide the knowledge and skills to spot the signs of a person experiencing poor mental health, the confidence to start a conversation and the tools to signpost to appropriate support. It comes with a 3-year support package from MHFA England. This program is accredited by MHFA England and delivered through FMHS Consulting on behalf of Quadrilect

IH Asbestos Management

1/2 DAY

Legislation, compliance and practical management

There is a duty to manage Asbestos and the issues that surround it. This course will ensure you are up to date in terms of legislation, compliance and provide practical management methods to ensure the audit, survey, recording and planning processes are robust.

Overview of asbestos legislation (Health & Safety at Work Act 1974, Control of Asbestos Regulations 2012, Management of Health and Safety at Work Regulations 1999, Hazardous Waste Regulations 2005, The Construction (Design and Management) Regulations 2015), HSE Approved Codes of Practice and Guidance.

QUALIFICATIONS IN FACILITIES MANAGEMENT

Qualifications in Facilities Management

Unlock your potential by gaining a formal qualification in FM. These are focussed on vocational skills and your learning can be applied directly to your work environment, so will be beneficial to both you and your employer. We can help you decide on what is the right level and size of qualification.

Above and beyond the face to face expert tuition we have a comprehensive online learning resource with guidance on how to tackle your assessments, learner forums and expert advice.

These are nationally recognised VRQ qualifications. VRQ stands for 'vocationally related qualification' and differs from the more work-based NVQs (National Vocational Qualification) which may be assessed in the workplace.

A centre you can count on

We deliver a comprehensive study plan to achieve your chosen facilities management qualification from a selection of highly regarded FM Training programmes.

- 1 Choose a level** to suit your experience: IWFM Level 3, IWFM Level 4, IWFM Level 5, IWFM Level 6.
- 2 Choose a size** to suit the time & commitment you want to put into your chosen level.
Award – A succinct overview of the basic skills and knowledge needed
Certificate – Provides a more comprehensive coverage of the subject.
Diploma – The full package of skills, knowledge and understanding required.
- 3 Choose your units** – some qualifications offer the option to select from a range of optional units to match your development needs.

Qualification Top Tips

Quadrilect have developed a virtual learning environment [VLE] to support our qualification learners. Everyone who registers on an IWFM qualification will be provided access to a wealth of top tips, check lists, resources and community forums to support them through their qualification journey.

Our 3 key tips to get you started:

- 1.** Make sure you fully complete the online induction course before embarking on your assessments. It is full of information to help you understand how the qualifications work and to help you tackle the assessments
- 2.** You will be expected to do further reading and research to prepare for your assessments as well as undertaking the training provided. ALWAYS ensure any material used to support your knowledge is properly acknowledged. It is much easier to do this if you make a note of the websites, books and articles etc as you are using them rather than trying to go back over your assessment at the end and recall the sources
- 3.** Break each assessment you are tackling into manageable sections and prepare a timetable to do the research, structure the response and then complete the section. This makes the tasks feel a lot less daunting when you are faced with multiple assessments.

There is more guidance and useful information to support you on the platform so please make sure you use the resource but we are always happy to speak to you if you prefer, to help point you in the right direction for your studies.

Our Delivery Model

We have put together specific packages for achieving the IWFM Award, Certificate and Diploma at a range of levels, as this is both the most cost and time effective way of achieving your chosen qualification with us.

For each unit required, tuition will be delivered through the face to face &/or online courses indicated. You will then need to complete a written assessment to be submitted post tuition.

Many of the qualifications are available for in-house groups, and we can tailor study programmes to fit your team's needs.

IWFM Level 3 qualifications in Facilities Management

For anyone new to FM, with less than two to three years' experience in an FM role, or first line managers seeking an FM qualification, these will help learners to develop specific skills in facilities management alongside a wide range of leadership and management skills.

Progressing from Level 3 to Level 4

If you wish to progress from level 3, you can carry forward up to 6 (IWFM) credits towards a IWFM level 4 Certificate or Diploma. NB. this will not exempt you from any mandatory units.

* In-House Delivery

We can deliver our programmes on-site for your organisation for groups of 6-15 learners.

Learner Advice [IWFM Level 4 Certificate]

“ Find out what sort of learner you are. I'm best in the morning. Tailor your study plan around that and allocate time for study and breaks. ”

Course Experience [IWFM Level 4 Award]

“ The whole course was very good pitched just right. Enjoyed it all. Trainer was clearly very competent and engaging. ”

” Hazardous Works Delivery Manager, DSTL

IWFM level 4 & 5 qualifications in Facilities Management

IWFM level 4 qualifications

For experienced operations managers who are responsible for a range of FM functions. They are also suitable for managers wishing to extend their operational activity. They provide a broad understanding of facilities management and equip learners to identify and use relevant understanding, methods and skills to address problems that are well-defined but complex and non routine.

IWFM level 5 qualifications

For facilities managers at middle management level who have considerable experience and responsibility for more specialised and complex functions. They develop the ability to identify and use relevant understanding, methods and skills to address complex problems. They will support you in being able to take on the responsibility for planning and delivering solutions, exercising autonomy and judgement in your area, and will develop your specialised knowledge further so that you can approach your role with independent and critical thinking to deliver the best results.

Progressing from Level 4 to Level 5

If you wish to progress from IWFM level 4, you can carry forward up to 6 credits towards a IWFM level 5 Certificate or Diploma. NB this will not exempt you from any mandatory units.

Progressing from Level 5 to Level 6

The IWFM do not allow any credits from IWFM level 5 to be carried forward to IWFM level 6.

Future Trends and Innovation in FM - Developing a business case and innovation plan

Take time out from day-to-day operations and explore how to take your service to a new level. We review models of FM innovation, what they've delivered and how they may apply to your organisation and offer a mix of theory and practical exercises focused on developing improvements and introducing innovation methods in your organisation.

The FM Business School - A strategic perspective on FM

A case study driven course aimed at FMs with over 3 years' managerial experience. It will give you a strategic understanding of FM, enabling you to communicate more effectively with senior management. Demonstrate the relationship between your FM operations and changing corporate objectives so that the vital role of a professional FM service is given recognition as a key contributor to business success.

ONLINE FLAGSHIP COURSE: GETTING STARTED IN FM

For many people, taking on responsibility for property and support services can seem daunting, but this course aims to help by offering a highly practical introduction to the essential areas and ways of dealing with day-to-day management issues. It also helps to explain the FM role and its importance to organisations.

The course is divided into 8 modules, each containing a lesson and a quiz and a comprehensive knowledge database.

Module 1 – FM & The Organisation

Module 2 – Property & Asset Management

Module 3 – Managing Space

Module 4 – Planning FM Support Services

Module 5 – Delivering FM Support Services

Module 6 – Facilities Management Projects

Module 7 – Risk Management & Health & Safety

Module 8 – CSR & Sustainability

All public face to face courses are held in central London.

We also offer live virtual programs throughout the year as well.

VT = Live on a Virtual Platform. Note some VT sessions are mornings only.*

F2F = Face to Face Delivery

Choose a date that suits you & your team

If you can't make any of the above dates on our public course program please note all these courses can be delivered as in house programs for groups of 6 or more.

Call us on **07483 348 224/760** and we can schedule a date to suit you and your team or email info@quadrilect.co.uk

Course fees

Our highly-experienced team of expert trainers includes some of the most active and influential figures in the FM industry today. Offering practical learning that is immediately transferable to the workplace, course fees include a comprehensive course workbook and, for face-to-face delivery, refreshments and lunch at a quality venue.

Delivey Models

F2F* = face to face delivery

VT*= Live virtual delivery

Please note if you are attending the training course as part of an IWFM qualification in Facilities Management, additional application fees will apply. For further information please contact us on 07483 348 224 or 07483 348 760

If you require accommodation

Subject to availability some of our course venues may be able to give our delegates a special discounted rate for accommodation, although it is your responsibility to liaise directly with the venue and organise this for yourself.

We suggest you use Venue Finders on tel 0844 875 1330 or email on info@vhfinders.com. They offer a free service to help you search for accommodation

***Professional Body Discounted rate – who is eligible?**
Members of IWFM, RICS, ILM, CIOB, CIBSE, IFMA

All prices shown are ex-vat.

**See page 9 for further information
on our corporate training pass**

How to book with us

1 Choose your course and select a date

2 Your course registration checklist

- > Your membership status: professional body membership or non member
- > Company postal address (please also supply invoice address if different)
- > Email address for joining instructions and invoice
- > Purchase order number (only if required by your company for invoicing purposes)
- > Qualification option (where applicable)

3 Complete your registration on our website www.quadrilect.com

Or email us at info@quadrilect.co.uk with the information from steps 1 & 2 above.

4 What will happen next?

Confirmation of your booking

When you register by email we will confirm the booking by reply. If you do not receive any acknowledgement of your registration please contact one of the team on 07483 348 224 or 07483 348 760 so that we may check your registration has been received.

Joining instructions and invoice

Course joining instructions and invoice will be emailed approximately 4-6 weeks prior to your start date. Please do not commit to any travel or accommodation costs prior to receiving your joining instructions confirming the course as we will not be able to refund these fees. Payment is required upfront before you attend the course.

Terms & conditions

If you cancel within 10 working days from the start of your course full fees apply but substitutes will be accepted. Cancellations must be made in writing. If you wish to transfer your booking to a future date we will ask you to settle your invoice in full and a further fee of £75+VAT per day will apply.

We reserve the right to change the venue and the right in its absolute discretion to cancel the event.

COURSE FEES AND HOW TO BOOK WITH US

We hope you enjoy your Quadrilect experience and look forward to hearing your feedback.

Quadrilect LTD 

Essentials of Building Services

“

Kept us all engaged, great at explaining and added elements of humour to keep it lighter hearted at times. Lots of knowledge and very clear, answered all questions. Good reading materials. Great food, service and location.

”

Facilities Manager, Haymarket Media

Corporate Annual Training Pass

“

We chose Quadrilect because they have such a wide offering and their previous programs have been really well received. We have undertaken CPD and formal qualifications. Their service has been both flexible and responsive to our needs and the Annual Training Pass offers real value for money.

”

Regional Facilities Manager, Arcadis
