Understanding FM

Course 01

“
Course 10/10 Engaging,
interesting and relevant.
Extremely motivational for
myself who has only been in FM
for a short period of time, and
the course made me realise what
an exciting career it is to be in.
Trainers 10/10 All enthusiastic,
helpful, knowledgeable and
people to look up to who have
had a fantastic career in FM.

”

Apprentice , BAE Systems

01 Understanding FM (Foundation)

3 DAYS

An introduction to the FM profession

Our popular flagship course, is suitable for newly appointed staff and those with less than two to three years' operational experience looking to broaden their range of responsibilities and skills.

- What is FM? Definitions & descriptions
- Property management
- Customer-centric FM
- Maintenance management
- Sustainability and management of energy to minimise costs
- The role that FM plays in corporate success
- An introduction to buildings & services
- Space planning & relocation management
- Commissioning & managing contract services
- Measuring & valuing the FM service
- Health & safety in the workplace

This course provides tuition for IWFM Level 3 qualifications in FM. Additional fees apply.

02 FM – Operational Management (Intermediate Module)

3 DAYS

Stepping up to a senior management role in FM

Recommended for FMs with more than two years' operational experience this course aims to develop managerial abilities for those on the path to a more senior FM position. Explores the scope, extent and diversity of the FM function, and examines techniques that will add value to the FM operation and align it to organisational objectives.

- Understanding FM service in its market sector
- Developing FM service within its business context
- Designing operational FM structures
- FM support service operations
- Health, safety & service delivery
- Financial management & budgeting
- Property occupancy & operating costs
- Planning & managing a relocation project
- Buildings aspects of workplace productivity
- Energy, environment & sustainability
- Business continuity planning

This course provides tuition for IWFM Level 4 qualifications in FM. Additional fees apply.

03 The Professional FM – Business & People (Intermediate Module)

3 DAYS

Building commercial awareness & team resilience

This course links the key aspects of what makes a FM successful. It focuses on the importance of linking strategy and the commercials with the way you develop high performing teams. Clarity in vision, measures for success and enabling people management skills will be covered in this three-day programme. It is intended for FMs with a minimum of two years' managerial experience in the field.

- Business & FM strategy alignment
- Techniques for performance management from organisational to individual level
- Risk profile and impact
- FM procurement & the supply chain
- FM team recruitment, selection and retention
- FM team development
- Managing wellbeing at work

This course provides tuition for IWFM Level 4 & 5 qualifications in FM. Additional fees apply.

04 Future Trends and Innovation in FM (Executive)

1 DAY

Developing a business led approach to innovation

Take time out from day today operations and explore how to take your service to a new level. We review how FM is evolving including areas such as the changing workplace and how to deal with it, the future of procurement and contracting and the impact of AI and how they may apply to your organisation. This interactive course offers a mix of theory and practical exercises focused on developing improvements and introducing innovation methods in your organisation.

- Understand the importance of embedding FM innovation
- Responding to a changing workplace including workplace optimisation and changes in ways of working
- The future of contracting and procurement including enhancing supplier relationships
- The potential impacts and limitations of AI
- Developing the business case for innovation
- Selling and implementing your innovation plan
- Using innovation to bring cost, quality and sustainability benefits to your organisation

This course provides tuition for IWFM Level 6 qualifications in FM. Additional fees apply.

05 The FM Business School (Advanced)

3 DAYS

A strategic perspective on FM

A case study driven course aimed at FMs with over 3 years' managerial experience. It will give you a strategic understanding of FM, enabling you to communicate more effectively with senior management. Demonstrate the relationship between your FM operations and changing corporate objectives so that the vital role of a professional FM service is given recognition as a key contributor to business success.

- A strategic vision of FM
- The future workplace
- Property strategies
- Contracting - latest developments
- Corporate Responsibility
- Managing people through change
- Preparing and presenting a business case for FM at board level

This course provides tuition for IWFM Level 5 & 6 qualifications in FM. Additional fees apply.

FM Business School

Course 05

“
Course: 10/10 A varied interesting and deep dive
into the history of Facilities Management and
current developments in the industry. The course
is structured well to fit around a final exercise
that makes use of the skills and knowledge you
have learnt across the course. I really enjoyed
the pace of learning. Trainers: 10/10 Excellent
engaging trainers throughout the FM Business
School Course. The trainers were all subject
matter experts that were able to translate the
course content across different industries for
the attendees. I felt thoroughly engaged in all
sessions.

”

Facilities Manager, Jewish Care

06 Team Leading (ILM Level 2 Qualification)

3 DAYS

Getting the best out of your FM team

This qualification is designed to give aspiring and practicing team leaders a solid foundation in their development as leader. With top down and bottom up pressures it is difficult to migrate into a team leader's role without some professional training support. This course gives you a range of tools & insights to self manage and successfully lead others.

- Exploring the supervisory role and responsibilities
- How to establish and position yourself as a team leader
- Planning your personal and professional development
- Setting personal objectives and team goals
- Giving and seeking feedback
- Controlling people, processes and productivity
- Effective time management
- How to manage difficult conversations
- Understanding stress, its effects and ways of managing it
- Communicating effectively with your team
- Planning and delivering team briefings
- Reporting briefing outcomes

This course is accredited by the ILM and is delivered through their approved provider Radius 360. The ILM Level 2 Award in Leadership and Team Skills and can be attained upon successful completion of structured answer questions and one work-based assignment

Team Leading Course 06

“

10/10 This course was very helpful and educational to me. It will definitely help me in my career path towards leadership and management. The trainer: Adrian was very helpful, knowledgeable and friendly. He made me feel very comfortable whilst on the course, I felt like no question or answer was stupid and validated.

”

Estates & Facilities Helpdesk
Assistant, Merseycare NHS
Foundation Trust

07 Maximise the Customer Experience

2 SESS

Creating one team service excellence

The FM's role is to deliver service excellence and a working environment that bolsters productivity whilst meeting both budgetary and legal requirements and responding to changing business imperatives. Learn how a customer-centric FM service can be achieved with a 'one team' approach that includes suppliers and in-house staff, and how measuring and publishing your results will demonstrate the value of modern FM to customers at every level.

- Defining today's service culture
- How to deliver a customer-centric culture
- Alignment of service to business requirement
- Defining what excellent customer service means to your organisation
- Measuring service excellence
- Service level agreements & key performance indicators
- Customer experience, relationships & perception

This course provides tuition for IWFM Level 4 qualification unit FM4.15. Additional fees apply.

08 Managing Hybrid & Remote Working Teams

2 SESS

Getting the best from your hybrid and remote workers

The introduction of the new Flexible Working Act 2023, means it is paramount for managers to be equipped to manage the additional challenges of hybrid and remote working teams.

There is so much more complexity to take into consideration when we don't meet people face to face on a regular basis, however when managed well, it can create infinite opportunities for growth.

At the end of this workshop, delegates will feel confident in carrying out the following aspects of their role online:

- create environments with their team to build trust and collaboration
- use practical tools and techniques to encourage engagement
- Facilitate discussions that take into consideration all attendees enabling everyone to have a voice
- Manage performance through two way one to ones
- Build in the ethics of the culture so that everyone is focused on a common goal
- Hold sensitive discussions that may often be avoided in an online world
- Understand how and when to support each individual in a way that suits them rather than using a 'one style fits all' approach

INHOUSE ONLY: MHFA England Mental Health First Aid

2 DAYS

Ensure your organisation has the right support in place

This interactive 2 day program will provide the knowledge and skills to spot the signs of a person experiencing poor mental health, the confidence to start a conversation and the tools to signpost to appropriate support. It comes with a 3-year support package from MHFA England. This program is accredited by MHFA England and delivered through FMHS Consulting on behalf of Quadrilect

Email us for further information. info@quadrilect.co.uk

LEADERSHIP & MANAGEMENT OF PEOPLE

COMMERCIAL & FINANCIAL MANAGEMENT

PROJECT MANAGEMENT

09 Delivering Cost-effective FM Services

2 SESS

How to get value for money from your FM services

FM costs vary by organisation but often make up at least 10% of an organisation's total revenue spend. In many organisations this percentage can be much higher. FMs have to be able to justify spend & demonstrate the added value that this expenditure brings to their organisations core business. This one day course explores key areas to help with this key management challenge.

- Understanding how the specification affects costs
- How to determine what is truly important to your organisation
- Control specification creep whilst dealing with competing user demands
- Confidently manage service delivery & control costs
- Key cost drivers
- How to justify or reduce costs
- Develop cost plans which are both realistic & sustainable

Project Management Course 12

“

10/10. A valuable two days spent going over project management. Very knowledgeable about subject and kept the attendees engaged throughout the course.

”

Site and Facilities Professional, BAE Systems

10 Financial Management 1

2 SESS

Finding your feet in finance

This one day course is aimed at FMs with little or no financial background and introduces the key principles of finance, accounting and budgets. No matter what your career aspirations, an understanding of financial management and accounting will play an important role in your work as your career advances – be it for a job application, monitoring of suppliers/customers, or writing budgets. So spend the day with us and we'll show you that you don't need to be intimidated by numbers.

- Financial terminology explained – don't let people intimidate or bluff you!
- Preparing and reading accounts
- Financial proposals
- Accounts, balance sheets & cash flow statements
- Preparing & managing cash budgets
- Checking the accounts of customers & suppliers
- VAT & tax implications on FM activities
- Budget templates in excel format provided for course exercises & office use

This course provides tuition for IWFm Level 3 qualification unit FM3.07 and IWFm Level 4 qualification unit FM4.07. Additional fees apply

11 Financial Management 2

2 SESS

Building on your financial knowledge

Intended for FMs who already have a grasp of the basics, this course provides a refresher on the key accounting principles before exploring the practical application of financial skills. Do you have to understand and compare company accounts? Do you need to understand how cash flow can go down, even as a business expands? Are your departmental overheads too high?

- More financial terminology explained
- Role of the auditor
- Discounted cash flow methods
- Capital budgeting, investment appraisal and ethical accounting
- Budget templates in excel format provided for course exercises & office use
- Determining financial performance with key ratios
- Analysing management accounts & problem solving
- Analysing the ways overheads can be allocated
- Budgeting, capital management & adding value
- Presenting a financial case to senior management

This course provides tuition for IWFm Level 5 qualification unit FM5.05. Additional fees apply.

12 Project Management

3 SESS

A step-by-step guide to delivering FM projects

FM projects have their special challenges. With their high visibility and many stakeholders; often with differing requirements, they can be difficult to deliver successfully. With a structured, relevant case study and step-by-step approach, this course explains the fundamentals of project management and provides the knowledge, tools and techniques required to plan, monitor and control your projects effectively. It enables you to define and deliver a project with far greater chance of success, enhancing both your capabilities and your reputation.

- Fundamental concepts & jargon busting
- Key roles and responsibilities
- Defining the project
- Developing project scope
- Sound estimating techniques
- Networking techniques
- Critical Path Analysis
- Managing project risks
- Scheduling work & resolving resource issues
- Monitoring, reporting and controlling the project
- Effective handover and closure

This course provides tuition for IWFm Level 4 qualification unit FM4.12 and IWFm Level 5 qualification unit FM5.11. Additional fees apply.

Project Management Course 12

“

The interaction with the other members of the group, the method of presentation and interaction with the trainer. Derek was wonderful, his encouragement to have all engage in the session was positive. The approach and presentation of the training was ideal for my method of learning and I felt I got a lot out of the sessions.

”

Regional Facilities Contract Manager, FCDO

13

Smart Buildings & Artificial Intelligence in FM

2 SESS

Recognising the opportunities for FM

A comprehensive review of new and emerging technologies that will impact work and the workplace, with visions of the future and case studies from innovative workplaces. This course will allow FMs to understand the key trends and adopt technology that can lead to FM innovation.

- Emerging Technologies
- New ways of working and the workplace of the future
- Smart Buildings and Digital Twin
- What are the benefits?
- Changing role of FM
- What kind of buildings do we need?
- Sustainability impact
- Data Analytics and monitoring
- Case studies

Smart Buildings & Artificial Intelligence in FM

Course 13

“

Course: 10/10 Great introduction to AI systems Trainers: 10/10 Excellent trainers, knowledgeable, a fun and enjoyable session.

”

Facilities & Estates Manager
Stevenage Bioscience Catalyst

An Introduction to Asset Management & Building Maintenance

Course 14

“

Overall 10/10. Very interactive and engaging. 10/10 excellent trainer with wealth of experience, very engaging, easy to follow.

”

Facilities Manager, House of Lords

14

An Introduction to Asset Management & Building Maintenance

2 DAYS

Managing your building with an effective maintenance programme

It is essential that the maintenance of building fabrics and building services is undertaken efficiently with a long-term strategy and a shorter term established management structure.

This course will provide you with a sound basic understanding of how buildings and maintenance should work, how to cost effectively manage them and how to work confidently and effectively with contractors and technical support staff.

- Property Strategy, Building Types and Building Uses
- The fundamentals of building services
- Why do maintenance?
- Risks associated with Building Services & Maintenance
- Annual and life cycle maintenance programs
- Monitor operating costs and environmental impacts
- Typical problems and how to avoid them
- How services can affect the well-being of the occupants
- Fundamental requirements for maintenance specifications
- Importance of energy efficiency and carbon management
- Apply techniques that optimise cost and value
- Principles of Building Management Systems (BMS)

iwfm
RECOGNISED CENTRE

This course provides tuition for IWFM Level 4 qualification unit FM4.17. Additional fees apply

15

AI and Data Management

1 DAY

Managing and unlocking the value in your facilities data

Facilities managers require a wide range of data but it is easy for organisations to have too much or too little and not know what to do with it when they have got it. Without the right data you can't demonstrate that you are meeting your objectives, managing your suppliers effectively or optimising expenditure.

This course provides an understanding of what data is needed, how it is collected, where AI can be beneficially used and how the data should be used and maintained in a way that is both secure and delivers quality and value

- An understanding of what facilities data is needed and how to get it
- How AI can help you get and optimise the data you need
- How the right facilities data can support operational efficiency
- Using facilities data effectively to generate business benefits
- Managing and maintaining facilities data including using CAFM systems
- How facilities data can support quality,

PROPERTY & PREMISES MANAGEMENT

REGULATORY UPDATE & FM COMPLIANCE

RISK MANAGEMENT

ENVIRONMENTAL, SOCIAL & GOVERNANCE

16 Overview of FM Compliance & Standards

2 DAYS

Key legislation areas for any operational FM

Regardless of the size of the building or the FM team, understanding and complying with legislation and standards is an essential requirement for FMs. Facilities Managers don't just need to understand what they have to do to keep their buildings safe, but also the required frequency of maintenance, inspection and record keeping. This practical two day course provides FMs with an introduction of key compliance management requirements and the knowledge to develop their own compliance checklist.

Our trainer reviews the legislation and management impact, areas will include:

- Fire; Asbestos
- Lifting Equipment
- COSHH
- Electricity & Water Management
- Air Conditioning
- Pressure Vessels
- Noise
- Gas
- Working at Height
- Overview of Managing Contractors

17 Fire Safety Compliance

2 SESS

Ensure you are legally compliant and know the fire risk assessment process

Significant fines and imprisonment are being imposed on businesses (including managers & directors) for breaches of legislation, even where no fire has taken place. The Regulatory Reform (Fire Safety) Order 2005 makes all organisations responsible for their own legislation compliance and fire safety regime. This course is an excellent foundation for those with basic fire safety responsibilities as well as an update for those who have some knowledge of the subject.

- Enforcement procedures
- Fire risk assessment process
- Equipment, lighting and signs
- Emergency plans, travel distances
- Fire Safety (England) Regulations 2022
- 'Responsible', 'Competent' and 'Relevant' Persons
- How fire spreads and behaviour of people in fires
- Detection, early warning and means of escape

FM Compliance & Standards Course 16

“

10/10 Brilliant! Focused to what we needed, provided lots of really useful links and theory was backed up with real-life examples which aids practical understanding massively. The trainer: Very knowledgeable, allowed plenty time for questions. Kept the pace snappy, but also provided time for regular breaks. Encouraged an approachable environment where no question was deemed silly or irrelevant and listened to delegates accurately to give appropriate answers.

”

Regional Facilities Compliance Manager, National Highways

18 Business Risk Management & Recovery

2 DAYS

Key requirements for effective risk management, contingency planning and disaster recovery

Unforeseen incidents can develop into disasters and severely disrupt business activities. Terrorist attacks are well publicised but floods, fires, computer & power failures and other incidents affecting both physical assets and workforces are surprisingly common. No organisation is immune and no responsible manager can afford to ignore the danger to employees, the loss of essential assets and the overall financial impact.

- What is risk & the main types
- Key legal obligations
- Principles of risk management
- Determining risk and what really matters
- Carrying out a risk assessment
- Developing a risk aware culture
- The importance of managing reputational risk
- Managing financial, delivery and supplier risk
- How to develop and implement BCP & DR plans

iwfm
RECOGNISED CENTRE

This course provides tuition for IWFM Level 4 qualification unit FM4.06 and IWFM Level 5 qualification unit FM5.04. Additional fees apply

19 ESG (Environmental, Social & Governance) for FMs

3 SESS

Compliance, good practice & practical tools

From climate resilience to social value and wellbeing, ESG issues are now a cornerstone for the FM. Changing legislative requirements and meeting external certification or stakeholder requirements requires new skills to implement effectively. Discover practical and cost effective ways from previous case studies and tools.

- The business case for sustainability and ESG
- Corporate and building regulations and reporting
- Energy management & implementing energy saving measures
- Understanding and implementing social value and wellbeing initiatives
- Management Systems including ISO 14001 and ISO 50001
- How to implement key sustainability initiatives and best practice within the workplace

iwfm
RECOGNISED CENTRE

This course provides tuition for IWFM Level 4 qualification unit FM4.19 and FM4.20 and IWFM Level 5 qualification unit FM5.19 and FM5.20. Additional fees apply

20 The Tender Process

2 SESS

Setting up a successful value-for-money contract

Too many contracts fail to meet customer expectations due to poor specification and inadequate pre-qualification and tendering procedures. This course will provide you with an effective, systematic and professional approach to tendering the appointment of contractors through the use of good specification and process management.

- Difference in public and private sector processes
- Identifying & agreeing contract objectives
- Identifying potential suppliers & managing the tender process
- Developing an effective specification of requirements
- Invitation to tender (ITT) & instructions to tenderers
- Pre-qualification process
- References, interviews and negotiation
- Evaluating bids for value-for-money
- Shortlisting, post-tender clarification & negotiation
- Contract award, handover & mobilisation

This course combined with Contract & SLA Management provides tuition for IWFM Level 4 qualification unit FM4.21. Additional fees apply

The Tender Process Course 20

“
I found the course really interesting & the content was explained in a way that was easy to understand & digest. The trainer is a great course presenter & tries hard to create engagement & discussion with course attendees. You can instantly tell he is very knowledgeable regarding tender processes. Also a good sense of humour!
”

Facilities Officer, The Health and Care Professions Council

CORPORATE ANNUAL TRAINING PASS

Building a comprehensive training plan for your team development

Making plans for 2026-2027 then talk to us about the co-ordinated annual plan you can set up for your teams to upskill and ensure a high standard of competence throughout the organisation.

There are a range of different level passes available depending on your need and budget so let us help you pick the right one for you.

These passes can be used exclusively for any mix of public or in house courses required.

To discuss your training requirement please call tel. 07483 348 224 / 760 or email us on info@quadrilect.co.uk

Corporate Training Pass Fee Table

BRONZE	SILVER	GOLD	PLATINUM
£5,967	£10,608	£17,160	£25,155
17 days	32 days	55 days	86 days
£351*	£332*	£312*	£293*

*You will automatically qualify for member rate plus the calculated discounts above so these daily fees compare against the non member 1 day fee of £485 per day showing significant savings for your organisation and team.

Please note corporate passes are valid for 12 months and they exclude qualification application fees.

➤ For more on our corporate solutions see pages 12-13

21 Contract & SLA Management

2 SESS

Successfully managing contracts and service levels

This course is designed to help you achieve the demanding performance requirements expected of your contracts and service level agreements. It will help you ensure that the objectives and targets set out will be met in practice, and within budget, so that promised customer benefits are delivered and service delivery improved.

- Understanding the legal framework of contracts
- Roles, responsibilities and relationships
- Measuring performance
- Why contracts fail
- Performance improvement programmes
- Dispute avoidance & resolution
- How to manage contract change & cost variation

This course combined with The Tender Process provides tuition for IWFM Level 4 qualification unit FM4.21. Additional fees apply.

Contract & SLA Management Course 21

“
10/10 All of it, it was all very informative and flowed nicely. Very well presented. Very approachable and knowledgeable Clear with instruction and explanations.
”

Contract Support Office, Sussex Police

22 Effective Space Planning

3 SESS

Getting the layout and office design right

From full scale office relocations to the smallest workplace rearrangements, the design, allocation and utilisation of space determines occupancy costs, staff morale and productivity. The advent of hybrid working has changed the way we work, along with the increased focus on staff wellbeing it has made the design of our offices even more important. With detailed guidance, case studies and exercises on space planning practice, this course guides you through the whole process from establishing needs to creating effective work environments for the modern world, accommodating subsequent changes, and planning for the ever changing future.

- The impact of the workplace on wellbeing and productivity
- Planning strategies and workplace layouts
- Designing for hybrid and agile ways of working
- Space standards and the Law
- Open, enclosed workplaces, partitions, ceilings, lighting and flooring
- The space planning process
- How to gather and analyse workplace data
- How to interpret business needs for the use of space
- How to calculate floor areas and circulation space
- The use of 'stacking' diagrams and 'blocking' plans
- The importance of understanding corporate culture
- Change management: Managing the human impact of changes to work environments

This course provides tuition for IWFM Level 4 qualification unit FM4.18 and IWFM Level 5 qualification unit FM5.18. Additional fees apply

Effective Space Planning Course 22

“

I thought the course was really informative. It gave me some good ideas to use over the next year with my move project and has helped me with some base plans to confirm we are looking at the right size for our needs.

”

Facilities Team Lead, Xodus Group

23 Managing Relocation

3 SESS

Setting up the project and seeing it through to a successful conclusion

This course will provide you with the knowledge and techniques to project manage relocations and refurbishments including fit-outs and moves whilst meeting deadlines and budgets as well as satisfying end-users. Through our interactive workshop approach, delegates are introduced to the techniques used in relocation project management and then gain confidence by using them.

The course has been designed so that anyone (including non-FM members of the organisation) who may be involved in the selection, design and relocation or refurbishment of premises will also benefit from attending.

- Defining the project scope & objectives
- Developing the project plan
- Mobilising internal teams
- Sourcing professional expertise
- Programme and budget control
- Planning and designing space
- The impact of hybrid working
- Sourcing and leasing space
- Checking suitability of the new building
- Communicating with staff
- Preparing, organising and managing the move
- Post-move issues

24 Understanding the Construction (Design & Management) Regulations

2 SESS

Managing a successful construction project in compliance with the 2015 Regulations

Everyone controlling site work on their premises has health and safety responsibilities – you need to check that working conditions are adequate before work begins, and ensure that the proposed work is not going to put others at risk. This course explains the key aspects of the CDM regulations, ensuring that delegates are well equipped to make the necessary changes to their operating procedures to ensure compliance with the CDM 2015 Regulations and to follow best practice in the field. The 2015 Regulations are based on the EU Temporary Working Directive and make a number of changes to previous CDM Regulations, such as the removal and replacement of the CDM Coordinator role, replacement of the ACoP, expansion of the CDM remit and changes to the competence requirements.

- CDM Regulations: overview, definitions & principles
- When do the CDM Regulations apply?
- Competence, co-operation & co-ordination
- Duties of clients
- All construction projects: responsibilities of clients, designers & contractors
- Notifiable projects: responsibilities of clients, designers, CDM co-ordinators, principal contractors & contractors
- The Health & Safety File

Understanding CDM Course 24

“

The course was very well considered in terms of pace and content. The trainer has a wealth of knowledge and experience and it shows in how well the course was run and how easy it was to grasp the content

”

FM Regional Lead, HMRC

25 IOSH Managing Safely

3 DAYS

A nationally recognised IOSH Managing Safely certificate

This course introduces practical controls to enable best practice in H&S for your organisation. Managing common hazards will help you to reduce sickness and absenteeism; improve the quality and productivity of your workforce and reduce costs such as healthcare, insurance premiums and compensation claims. Accredited by the Institution of Occupational Health & Safety, the world's leading professional body for H&S practitioners.

- The H&S responsibilities of managers
- Assessing & controlling risks
- Identifying & managing common hazards
- Checking performance & learning from losses

The IOSH Managing Safely certificate is awarded to delegates upon successful completion of a written assessment (based on multi-format questions) and a work-based project after the course. Delivered by FMHS Consulting, an IOSH approved course provider.

This course provides tuition for IWFM Level 4 qualification unit FM4.05 and IWFM Level 5 qualification unit FM5.07. Additional fees apply

IOSH Managing Safely Course 25

“10/10 Incredibly informative, helpful and engaging. Trainer: 10/10 Beth is amazing! She not only made sure that all participants learnt and could relate to the subject matter regardless of their industries, but she did the unthinkable - she made a subject I have always found tedious, relevant, engaging and actually imbued me with enthusiasm for health and safety!”

Head of Operations, Holocaust Educational Trust

26 IOSH Managing Safely Refresher

2 SESS

A best practice refresher enabling you to continue meeting your statutory obligations

It is best practice to refresh your IOSH Managing Certificate every three years. This course provides you with continued support in managing health and safety issues in your workplace, helping you to revise key management responsibilities and updating you on the relevant changes in good practice, legislation and standards.

- Revisit the benefits of managing health and safety
- Review the risk assessment process
- Review how to choose the best method to control risks
- Revise and update the legal requirements of managers
- A fresh look at how to investigate accidents and incidents
- Review and measure performance for continual improvement

Accredited by IOSH, the world's leading professional body for health and safety practitioners and delivered by System Concepts Ltd, an IOSH approved course provider.

A new certificate will be awarded on successful completion of a written assessment based on multiple-choice questions at the end of the course.

27 Legionella Awareness, Responsibilities and Compliance

2 SESS

Responsibilities to oversee and/or undertake water hygiene works on buildings

This course provides you with key information in order to ensure that water systems for which you are responsible are being managed and maintained effectively and in accordance with the relevant statutes and guidance. Our risk assessors will explain safe maintenance, operation, control measures and monitoring practices.

- A brief history of Legionnaires' disease
- Medical aspects of Legionnaires' disease
- Legal perspective
- Choosing a specialist sub-contractor
- Cleaning and disinfection of water systems
- Competency, responsibilities and definitions
- What is a sufficient and suitable risk assessment
- Implementing and managing control regimes/measures
- Where and when water sampling should be carried out
- Record keeping and the management of site records

TEAMWORK & CASE STUDIES

A City & Guilds accredited certificate will be awarded following successful completion of the course verification test.

Delivered by Evolution Water Services Ltd, a City & Guilds Accredited Centre.

28 Assessing Display Screen Equipment

2 SESS

Making practical and compliant improvements

Display Screen Equipment (DSE) assessments can deliver more than legal compliance. Improvements in performance, quality, comfort and satisfaction are all possible when assessments are performed by assessors who understand not only the legal requirements but also how to make practical improvements. This course provides a grounding in the legislation, supporting standards and best practice. It also gives tips on practical ways to conduct assessments, rectify areas of concern and how to carry out the essential Workstation Assessments.

- The Display Screen Equipment Regulations 1992 (Amended)
- The scientific principles behind the regulations
- An introduction to ergonomics
- Virtual issues & display screen work
- Posture & musculoskeletal issues
- Environmental & organisational issues
- How to conduct assessments & use checklists
- Practical assessment exercises
- Implementing an effective action plan

HEALTH & SAFETY

CORPORATE SOLUTIONS: IN-HOUSE, L&D & BESPOKE SOLUTIONS

Corporate Solutions: in-house training, L&D consultancy & bespoke solutions Learn, Grow, Perform

Count on our commitment to quality, flexibility and choice

Choose from our highly-rated live virtual learning or online programmes, and take advantage of leading-edge industry knowledge and in-depth practical experience through our extensive network of trainers and consultants. Together we can design the best solutions for all levels, from introductory to senior leaders.

We can work independently or in partnership with your operational teams, HR / training or other internal specialists to design, plan and implement solutions to complement existing corporate programmes. You can also benefit from the wider links to Quadrilect's public courses, professional qualifications, including IWFM, and other accredited courses in areas such as Health & Safety and Leadership and Management.

See more about our Corporate Annual Training Pass, p9.

To discuss the best L&D solutions for your organisation, including in-house qualifications at Levels 3 & 4, please call us on 07483 348 224 or 07483 348 760

Talent Management & Succession?

Whether you're looking to grow existing skills or recruit new talent we can support and advise at all stages using our wide-ranging expertise and industry knowledge.

Benchmarking capabilities against industry standards?

We can work with you to assess your team's current capabilities against future demands and challenges, providing better targeting of L&D priorities and resources.

Re-defining roles and performance

Our extensive industry knowledge can help shape your change agenda as an integral part of organisational re-structuring and team development.

L&D planning and impact assessment

Work with us to refine current and medium-term priorities in line with evolving corporate objectives, and design frameworks to measure and evaluate learning outcomes effectively.

Team Transformation

Our highly applied in-house workshops are designed to take your teams to a new level of confidence and capability. Discover how we can work with you to transform your team's performance in areas such as contract services management, frontline customer service, and sustainability.

IN-HOUSE COURSES - see page 13

All courses in the brochure can be delivered inhouse and we also have some programmes that we only offer for in-house delivery which include:

ISO Series for Workplace

- FM Operations Framework - ISO 41001
- FM Strategic Sourcing - ISO41012
- Implementing and Managing Effective Environmental Management Systems – ISO14001
- Occupational H&S Management Systems ISO 45001

Wellbeing & Mental Health

- MHFA England Mental Health First Aid
- MHFA England Mental Health Refresher

Contracting

- FM Contract Models

Building Maintenance

- Asbestos Management

Corporate Social Responsibility

- Social value: Management & Approach

Management Development

- ILM Level 3 Management Development
- Succession Planning

IH FM Contract Models

1 DAY

Making sense of the variations and determining best fit

Bundled, TFM, managing contractor, best of breed – what are the choices when organising FM services? There are a variety of models available in the market place. This course defines and explains them, examines and discusses the pros and cons of each, and provides frameworks to support the decision making process.

The day includes workshop sessions and interactive exercises to put the ideas into practice.

IH Succession Planning within FM

1 DAY

Continuity of talent is vital in every organisation. Within FM it is important to develop leaders who move from operational, to tactical then strategic thinking while understanding the scope of the FM industry. The focus of this programme is identifying gaps and developing a process to create talented teams.

IH FM Strategic Sourcing - ISO41012

1 DAY

International Standard on the FM procurement process

This course is designed to help you achieve an understanding of the new ISO standard 41012.

Covering the procurement process - both tactical and strategic perspectives.; considering the different approaches and options available in sourcing; looking at the options and different agreements available to the FM professional

IH FM Operations Framework - ISO 41001

1 DAY

Develop an effective FM Management System

In today's challenging world it is not enough for Facilities Management professionals just to do a good job they have to be able to demonstrate it and quantify it. ISO 41001:2018 provides a framework to allow them to do this in a way that is relevant irrespective of the sector in which their organisation operates or where in the world they are based.

This course will help develop a route map that will optimise facilities management operations in a way that aligns more closely with core organisational objectives

IH ILM Level 3 Management Development

5 DAYS

An introduction to the skills, knowledge and understanding required by today's first line managers. The programme will strike the right balance between planning, organising, motivating and controlling, helping pressured FMs to manage with success and confidence. It is a highly participative and engaging course which offers the opportunity to reflect as well as practise new techniques in a safe environment.

IH Social value: Management & Approach

1 DAY

Building communities through corporate culture

This training provides an introduction to understanding Social Value and how it can benefit the public sector and your organisation. Showing you how to build social value into your procurement culture and build communities through the power of spending.

This will help deliver tangible social value benefits rather than a theoretical view from tenders.

We have a programme available for either private or public sector organisations. Addressing definitions, tenets and how practice can be applied & communicated effectively.

IH Implementing and Managing Effective Environmental Management Systems – ISO14001

1 DAY

Identify and plan actions to meet the standard and realise the benefits

Management Systems are a pre-requisite for FM teams to manage the complexity of reporting, compliance, strategy and risk. ISO 14001 provides a comprehensive set of tools available to companies to minimise harmful effects on the environment caused by its activities, and to achieve continual improvement of its environmental performance.

This course will help you understand how the standard operates and ensure the system is effective and benefits your business.

IH MHFA England Mental Health First Aid

2 DAYS

Ensure your organisation has the right support in place

This interactive 2 day program will provide the knowledge and skills to spot the signs of a person experiencing poor mental health, the confidence to start a conversation and the tools to signpost to appropriate support. It comes with a 3-year support package from MHFA England. This program is accredited by MHFA England and delivered through FMHS Consulting on behalf of Quadrilect

IH Asbestos Management

1/2 DAY

Legislation, compliance and practical management

There is a duty to manage Asbestos and the issues that surround it. This course will ensure you are up to date in terms of legislation, compliance and provide practical management methods to ensure the audit, survey, recording and planning processes are robust.

Overview of asbestos legislation (Health & Safety at Work Act 1974, Control of Asbestos Regulations 2012, Management of Health and Safety at Work Regulations 1999, Hazardous Waste Regulations 2005, The Construction (Design and Management) Regulations 2015), HSE Approved Codes of Practice and Guidance.

CORPORATE SOLUTIONS: IN-HOUSE, L&D & BESPOKE SOLUTIONS

QUALIFICATIONS IN FACILITIES MANAGEMENT

Qualifications in Facilities Management

Unlock your potential by gaining a formal qualification in FM. These are focussed on vocational skills and your learning can be applied directly to your work environment, so will be beneficial to both you and your employer. We can help you decide on what is the right level and size of qualification.

Above and beyond live virtual expert tuition we have a comprehensive online learning resource with guidance on how to tackle your assessments, learner forums and expert advice.

These are nationally recognised VRQ qualifications. VRQ stands for 'vocationally related qualification' and differs from the more work-based NVQs (National Vocational Qualification) which may be assessed in the workplace.

A centre you can count on

We deliver a comprehensive study plan to achieve your chosen facilities management qualification from a selection of highly regarded FM Training programmes.

1

Choose a level to suit your experience:
IWFM Level 3, IWFM Level 4, IWFM Level 5,
IWFM Level 6.

2

Choose a size to suit the time & commitment
you want to put into your chosen level.

Award – A succinct overview of the basic skills
and knowledge needed

Certificate – Provides a more comprehensive
coverage of the subject.

Diploma – The full package of skills, knowledge
and understanding required.

3

Choose your units – some qualifications offer
the option to select from a range of optional
units to match your development needs.

Qualification Top Tips

Quadrilect have developed a virtual learning environment [VLE] to support our qualification learners. Everyone who registers on an IWFM qualification will be provided access to a wealth of top tips, check lists, resources and community forums to support them through their qualification journey.

Our 3 key tips to get you started:

1. Make sure you fully complete the online induction course before embarking on your assessments. It is full of information to help you understand how the qualifications work and to help you tackle the assessments
2. You will be expected to do further reading and research to prepare for your assessments as well as undertaking the training provided. ALWAYS ensure any material used to support your knowledge is properly acknowledged. It is much easier to do this if you make a note of the websites, books and articles etc as you are using them rather than trying to go back over your assessment at the end and recall the sources
3. Break each assessment you are tackling into manageable sections and prepare a timetable to do the research, structure the response and then complete the section. This makes the tasks feel a lot less daunting when you are faced with multiple assessments.

There is more guidance and useful information to support you on the platform so please make sure you use the resource but we are always happy to speak to you if you prefer, to help point you in the right direction for your studies.

Our Delivery Model

We have put together specific packages for achieving the IWFM Award, Certificate and Diploma at a range of levels, as this is both the most cost and time effective way of achieving your chosen qualification with us.

For each unit required, tuition will be delivered through the face to face &/or online courses indicated. You will then need to complete a written assessment to be submitted post tuition.

Many of the qualifications are available for in-house groups, and we can tailor study programmes to fit your team's needs.

IWFM Level 3 qualifications in Facilities Management

For anyone new to FM, with less than two to three years' experience in an FM role, or first line managers seeking an FM qualification, these will help learners to develop specific skills in facilities management alongside a wide range of leadership and management skills.

Progressing from Level 3 to Level 4

If you wish to progress from level 3, you can carry forward up to 6 (IWFM) credits towards a IWFM level 4 Certificate or Diploma. NB. this will not exempt you from any mandatory units.

* In-House Delivery

We can deliver our programmes on-site for your organisation for groups of 6-15 learners.

Learner Advice [IWFM Level 4 Certificate]

“

Find out what sort of learner you are. I'm best in the morning. Tailor your study plan around that and allocate time for study and breaks.

”

Course Experience [IWFM Level 4 Award]

“

The whole course was very good pitched just right. Enjoyed it all. Trainer was clearly very competent and engaging.

”

**Hazardous Works Delivery
Manager, DSTL**

IWFM level 4 & 5 qualifications in Facilities Management

IWFM level 4 qualifications

For experienced operations managers who are responsible for a range of FM functions. They are also suitable for managers wishing to extend their operational activity. They provide a broad understanding of facilities management and equip learners to identify and use relevant understanding, methods and skills to address problems that are well-defined but complex and non routine.

IWFM level 5 qualifications

For facilities managers at middle management level who have considerable experience and responsibility for more specialised and complex functions. They develop the ability to identify and use relevant understanding, methods and skills to address complex problems. They will support you in being able to take on the responsibility for planning and delivering solutions, exercising autonomy and judgement in your area, and will develop your specialised knowledge further so that you can approach your role with independent and critical thinking to deliver the best results.

Progressing from Level 4 to Level 5

If you wish to progress from IWFM level 4, you can carry forward up to 6 credits towards a IWFM level 5 Certificate or Diploma. NB this will not exempt you from any mandatory units.

Progressing from Level 5 to Level 6

The IWFM do not allow any credits from IWFM level 5 to be carried forward to IWFM level 6.

Future Trends & Innovation in FM

1 Day

Followed by assessment unit:

- Strategic Facilities Management (FM6.01)

Future Trends and Innovation in FM - Developing a business lead approach to innovation

Take time out from day today operations and explore how to take your service to a new level. We review how FM is evolving including areas such as the changing workplace and how to deal with it, the future of procurement and contracting and the impact of AI and how they may apply to your organisation. This interactive course offers a mix of theory and practical exercises focused on developing improvements and introducing innovation methods in your organisation.

The FM Business School - A strategic perspective on FM

A case study driven course aimed at FMs with over 3 years' managerial experience. It will give you a strategic understanding of FM, enabling you to communicate more effectively with senior management. Demonstrate the relationship between your FM operations and changing corporate objectives so that the vital role of a professional FM service is given recognition as a key contributor to business success.

ONLINE FLAGSHIP COURSE: GETTING STARTED IN FM

For many people, taking on responsibility for property and support services can seem daunting, but this course aims to help by offering a highly practical introduction to the essential areas and ways of dealing with day-to-day management issues. It also helps to explain the FM role and its importance to organisations.

The course is divided into 8 modules, each containing a lesson and a quiz and a comprehensive knowledge database.

Module 1 – FM & The Organisation

Module 2 – Property & Asset Management

Module 3 – Managing Space

Module 4 – Planning FM Support Services

Module 5 – Delivering FM Support Services

Module 6 – Facilities Management Projects

Module 7 – Risk Management & Health & Safety

Module 8 – CSR & Sustainability

How to book with us

1 Choose your course and select a date

2 Your course registration checklist

- Your membership status: professional body membership or non member
- Company postal address (please also supply invoice address if different)
- Email address for joining instructions and invoice
- Purchase order number (only if required by your company for invoicing purposes)
- Qualification option (where applicable)

3 Complete your registration on our website www.quadrilect.com

Or email us at info@quadrilect.co.uk with the information from steps 1 & 2 above.

4 What will happen next?

Confirmation of your booking

When you register by email we will confirm the booking by reply. If you do not receive any acknowledgement of your registration please contact one of the team on 07483 348 224 or 07483 348 760 so that we may check your registration has been received.

Joining instructions and invoice

Course joining instructions and invoice will be emailed approximately 4-6 weeks prior to your start date. Please do not commit to any travel or accommodation costs prior to receiving your joining instructions confirming the course as we will not be able to refund these fees. Payment is required upfront before you attend the course.

Terms & conditions

If you cancel within 10 working days from the start of your course full fees apply but substitutes will be accepted. Cancellations must be made in writing. If you wish to transfer your booking to a future date we will ask you to settle your invoice in full and a further fee of £35+VAT per day will apply.

We reserve the right to change the venue and the right in its absolute discretion to cancel the event.

COURSE FEES AND HOW TO BOOK WITH US

We hope you enjoy your Quadrilect experience and look forward to hearing your feedback.
